To Whom It May Concern:

This letter is being written today in order to show support of Dr. Will May's ACS President-Elect 2018 candidacy.

My name is Terry Brewer, Founder and President of Brewer Science, Inc. located in Rolla, MO and a previous Kathryn Hach for Entrepreneurial Success Award winner. Brewer Science has a strong working relationship with ACS, NIST, and Dr. May.

Recently, Dr. May and myself were able to have an inspirational conversation about his vision and personal expectations if elected as ACS President-Elect 2018. Willie is a well-respected and admired, as well as driven, scientist and executive leader.

Dr. May's agenda of Inspire, Diversify and Grow absolutely hits the target for students, small business and industry. He also has the ability to execute this agenda; to take action and achieve a positive benefit for all. At this time of challenges and change, Dr. May's leadership would be very welcomed as an asset for the ACS.

Dr. May has the experience and a proven track record to make an effective President-Elect.

Sincerely,

A handwritten signature in black ink that reads "Terry Brewer". The signature is written in a cursive style with a long horizontal line extending from the top of the first letter.
